David Carson, the co-creator & author of **Medicine Cards**, *The Discovery of Power through the Ways of Animals*, is a writer and teacher of remarkable qualities. Raised in Oklahoma Indian country, David learned from many tribal elders and medicine carriers. Some of this is chronicled in his book **Crossing Into Medicine Country** (published 2005). He has also just published the **2013 Oracle – Ancient Keys to the 2012 Awakening**, which he co-authored with his wife Nina Sammons. David is of Choctaw descent and has lived on various reservations in Montana and Canada. David has traveled worldwide, including at the invitation of shamans from Siberia and Hawaii, where he has taught seminars. David has been involved in sacred ceremony throughout the USA & many other countries. He has led dances in Iceland at the foot of Glacier Snaefelsnes, which is said to be the crown chakra of the earth. He has done ceremony with the Mardi Gras Indians in New Orleans, leading to the establishment of White Buffalo Day, a yearly celebration. In 1999, David brought a medicine wheel ceremony and animal medicine teachings to Israel before joint Israeli and Palestinian audiences. More recently, he has attended shamanic conferences in Northern Italy.

David's daughter, **Greta Carson**, will be co-teaching the 7 days here with her father. Greta is a Licensed Mental Health Counselor who lives and practices in Taos, New Mexico. She received her master's degree from the University of New Mexico. Born in the Indian hospital at Crow Agency, Montana, Greta has been indoctrinated with Native American spirituality and culture from birth onward. She has had many sweet medicine teachers, most notably her father. For the past ten years Greta has been traveling and teaching with her father throughout the United States and Europe. Greta has been an active participant in many ceremonies. She strives to make her life a living prayer for the healing of humanity and our beloved planet. Greta is of Choctaw, Chickasaw and Pawnee descent.

Achamore House is home to the International Flower Essence Repertoire, and is also run as a 4-star B&B. This will be the 4th time that IFER has hosted David and Greta's seminars, and the 3rd time on Gigha. The landscape here provides wonderful opportunities for engaging with the elements of nature, and for taking the time to go within more deeply; a place to "rewrite the script". For a fuller description of the seminar, please contact us. To book a place, simply send a deposit cheque for £150 (payable to "IFER") to the address shown overleaf, or call us to pay the deposit by credit or debit card.
